

The Things We Need Song Lyrics

Like a buzzing bee I need
somewhere safe, a home indeed.

Like a flower when it rains,
I need water in my veins.

I eat food so I can grow
Big and strong and dynamo

PAUSE

One more thing I need; it's AIR!
We all need to breathe our share.

Living things have basic needs
So that we all can succeed:
Shelter, water, food, and air
Look around, they're everywhere!
